

## **Declaration on REACH regulation (EG Nr. 1907/2006)**

Tridelta Siperm GmbH is a downstream user within the meaning of REACH and is therefore not directly responsible for the registration of substances. As a downstream user, it is our duty to identify the REACH compliance of our suppliers: All of our suppliers have registered the relevant substances. Availability of materials is thus guaranteed.

Furthermore a comparison with the ECHA list (<https://echa.europa.eu/de/candidate-list-table>) of substances of very high concern (SVHC), last updated on 05/11/2025, is performed by us regularly. Substances from this list are not included in our products. We will inform you about any changes without being asked.

This letter replaces all individual question catalogs on the topic.  
We ask for your understanding.
